

Lambs

The staff in the Lambs room have been working on building strong attachments and settling new children. They have been keeping routines consistent and using circle times to share songs and stories with the Lambs children. Some of the older lambs have started to speak and have taken a love to colours. This interest has been reflected in the planning. The Lambs were very engaged in their recent rainbow topic during which they have been exploring new colours each day by the means of songs, themed tuff trays and colour hunts.

Farmers

The Farmers team have been busy building strong attachments with the children. They have done this by speaking about our feelings, making a new family tree and display of all our children's family photos. This serves to support the children settling back into the setting. The children have loved creating the tree and speaking about their home life. We are working on discussing emotions and how we are feeling. We have been using emotion puppets and added new stories to the book area to support this. We have also started discussing how we are feeling in the morning and afternoon circle times.

The children love The Hungry Caterpillar story, and this has been linked to several activities such as food tasting and food exploration texture trays. We are also taking this book further and will be developing a mobile display using the story to support the children in recalling the days of the week and numbers.

NSPCC fundraising

We would like to thank all parents and families for their generous donations over the past year to the various NSPCC events/appeals each nursery has hosted. Together, with your help, we have been able to raise £6392 for the NSPCC across Fisherfield this year! This money will serve to make the lives of vulnerable children across the country better. We have been raising money for the NSPCC since 2009 and we are proud to say that with the support of the families who attend our nurseries, we have raised £84,145 in just over a decade.

After consulting with the Nursery Council in each of the Fisherfield nurseries, we have made the decision to start supporting the RSPCA. The children have demonstrated an interest and love for animals, and this will be a great way to build on their interests. As part of our support for the RSPCA, we will be sponsoring a dog named 'Ginger' and will continue to host exciting and fun fundraising events as soon as it is safe to do so!

Ginger

Ginger is a fluffy pup who loves exploring the outdoors. She's about to start her guide dog training but she needs your help.
