

BURY COLLEGE

NEWS FLASH

February 2022

LAMBS:

The little lambs have enjoyed lots of physical play recently as we have lots of new movers since coming back after the holidays, in the next few months we are going to continue to focus on physical development taking it into the outdoors as the spring weather comes and completing lots of forest school activities, we will also be exploring in the garden starting to

plant some seeds ready for spring. All the new starters have settled in well and are building confidence to engage in exciting activities and building relationships with other children, from this we are also focusing upon sharing and kindness.

DUCKS:

The ducklings have been working hard to develop their self-care and independence skills. Well done to all the children who have started to toilet train. We have also focused on independence skills such as putting on our shoes and coats independently. The children have enjoyed exploring lots of physical development within the outdoors and using our fine motor skills whilst mark making activities. During the coming month we are going to be focusing on Julia Donaldson books and activities linking to the stories. Such as building Gruffalo caves and making owl ice cream.

FARMERS:

The Farmer's children have taken part in a range of baking activities, we made cakes for dinner and soups where we chopped up vegetables such as potatoes, carrots and leeks, we have been exploring where the vegetables we used grow and where we get our baking ingredients from. In February we will be sending out an invite to our school readiness workshop via Parentzone - the workshop will provide you with information on how to support your child with their transition to school.
