## NEWS FLASH

March 2022

The children have had fun adding new loose parts equipment to the nursery, in the form of jigsaw pieces and cable reels. We have been using them in our role play as food and mud, we also used them in our calm down area, to create models linked to our emotion of the day where we spend time exploring sadness, love or happiness.

**FARMERS**

The children have enjoyed learning about volcanoes and dinosaurs. We carried out science experiments and looked at different theories on how the dinosaurs became extinct. The older children enjoyed looking at dinosaur skeletons, linking it to our forest school activity, where they built their own skeleton using natural resources in the garden. The younger farmers enjoyed solving mathematical problems and learning the names of the different types of dinosaurs.

**LAMBS**

The lambs have spent time exploring the holistic baskets we have recently added to the room, we added sensory balls, gloves, combs, and brushes. The children have enjoyed investigating independently and exploring different vegetables and fruits hidden away in their baskets.

**Dates for the Diary:****MARCH 3RD – WORLD BOOK DAY**
