

BURY COLLEGE

NEWS FLASH

February 2023

WHAT WE HAVE DONE:

Hello 2023! January has been a very exciting month across the nursery as we welcomed back everybody after Christmas, we have loved seeing all of your photos on Parentzone and have been busy incorporating what you have been up to into our activities at nursery. We have continued our focus of Winter across all three rooms and we were very lucky to have snow again for the children to explore!

In Little Lamb's the babies have been busy exploring with their senses and have focused lots on their mathematical development. The children have helped to enhance their room by creating number lines, mathematical artwork and created a baking file!

In Duckling's we have focused on the world around us as we explored the change in the weather, learned about music from around the world to link in with our new music room and learned lots of differences between our families!

In Farmer's the main focus has been all about school readiness! The children have enjoyed our P.E sessions, handwriting practice and independence activities such as creating their own tea and serving their meals.

Across the nursery we have also been really busy promoting communication and language skills to all the children. Every week we are continuing to send out a book of the week for each room and a display board is located in the entrance so parents can see which book your child will be focusing on. Our Makaton signs of the week are also working really well in each room, we have noticed that this month the children have really been practicing at home and are using their Makaton signs more throughout their day at nursery!

WHAT WE WILL BE DOING NEXT:

What we will be doing next:

In Little lambs: The main focus will still be mathematical development, the children will be learning all about colours, numbers and shapes!

In Ducklings: The children will be learning more about the world around us as we learn about our environment, the importance of looking after our world and forest school sessions.

In Farmers: The children will continue their focus on school readiness and also their literacy development.

lots of outdoor play/forest school!
