

EDINBURGH WAY

NEWS FLASH

October 2023

We have recently hosted our very first open day for the new academic year. On this day our lovely parents and children were able to meet the team, tour the facility and connect with the other parents.

Farmers

The Farmers have been reading the book 'Amazing' by Steve Antony and whilst reading this book they have been learning more about each other and started to create bonds with the team and other children. Together we have spoken about our likes and dislikes and learnt the difference between our friends and families. We also used this opportunity to talk about our golden rules and why they are important to us as a room.

As September was National Organic month the Farmers have been caring for all the plants in the allotment and learning more about where their food comes. We have also planted some more vegetables and can't wait for them to grow.

Ducklings

Throughout the month the Ducklings have been reading the book "Walking through the jungle" by Julie Lacome. The ducklings went on lots of different adventures exploring for animals outside whilst reading through the book, taking part in obstacle courses, and moving in the way the animals do. They also got very creative making tiger pictures using forks to make the tigers stripes and using grey paint and their hands prints to make an elephant. While learning about National Organic month the Ducklings have been exploring different vegetable plants and herbs. We have been exploring how they smell, look, and feel.

Lambs

In the Lamb's rooms we planted sprouted potatoes and went outside daily to water them. We are currently also growing spring onions, cucumber, mint, and other vegetables. We noticed the leaves went brown and we knew it was ready to be harvested.

The lambs were excited to pull their potatoes out and have them for tea. We will continue to watch over the other vegetables we are growing, and we plan to share them with our family and friends.

Look what we will be doing next:

To continue our learning journey on organic food we will be making our own plants pots and planting herbs and vegetables at the front of the nursery to share with our local community.

We are also in the process of collecting food which we plan to donate to Rochdale food bank. We want to take this opportunity to explore the importance of sharing and helping others as it links with our British values and our golden rules. In October it is national Parents week, as we know our parents may not have the time to come out of work to join in with our activities. We are planning to provide a range of activities at various times to celebrate and support our parents to get involved.

DATES FOR DIARY
