

ZEN NEWS FLASH

February 2022

LAMBS

The lambs have been taking part in daily five-minute physical sessions to develop their gross motor skills. The children enjoyed creative activities using different parts of their bodies and exploring different textures and materials. They have also been taking part in obstacle courses and having fun with playdough disco.

FARMERS

The farmers have enjoyed learning about different foods and cultures, using the Handa's Surprise story. As well as exploring the fruits from the story, the children enjoyed learning about how and where other people live. The children were particularly intrigued by the coconut in the story, we have explored a real coconut and turned it into a musical instrument. The farmers are looking forward to finding other natural objects to create instruments with and we will be adding these to our sensory room.
